

Lab: Generative AI for Storytelling

Estimated time needed: 30 minutes

Learning objectives

After completing this lab, you will be able to:

- Sign up in Zoho Analytics and upload a dataset
- Generate a report by prompting Zia AI

Welcome to the lab on **Generative AI for Storytelling**!

Overview

In this lab, you will learn how to use Generative AI to prepare a report for your data using charts and insights.

To begin, you need to create your login on the [Zoho Analytics website](#) page.

Task 1: Sign up in Zoho Analytics

Step 1: Click www.zoho.com/analytics/

Step 2: Fill in the required information and click the SIGN UP FOR FREE button.

Note: You can sign up for Zoho Analytics using various options such as Google, LinkedIn, or a Zoho email account. The platform offers a 15-day free trial without requiring any credit card details.

The screenshot shows the Zoho Analytics website. The browser's address bar displays 'zoho.com/analytics/'. The website's navigation bar includes links for DataPrep, CRM, Creator, Books, RPA, Inventory, and All Products. A banner at the top states: 'Zoho Analytics has been recognized in the 2025 Gartner® Magic Quadrant™ for ABI Platforms. [READ MORE](#)'. The main header features the Zoho Analytics logo and a navigation menu with Platform, Features, Solutions, Pricing, Success Stories, and Resources. The main content area is titled 'AI-Powered Self-Service BI and Analytics Platform' and features a large heading: 'Go from data to insights in minutes'. Below this heading are three checkmarks: 'Connect Data', 'Visually Analyze', and 'Get Actionable Insights'. On the right side, there is a sign-up form with the following fields: 'Cloud' (selected) and 'On-premise' (unselected) radio buttons; 'Work Email'; 'Password'; '+91' and 'Phone Number' input fields; a checkbox for 'I agree to the Terms of Service and Privacy Policy.'; a red 'SIGN UP FOR FREE' button; and a section for 'or sign in using' with Google and LinkedIn icons. A large purple arrow points towards the sign-up form.

Step 3: On the Welcome screen, click **Get Started**.

The image shows the Zoho Analytics homepage for a user named Pratiksha. The interface includes a top navigation bar with the Zoho Analytics logo, the user's name, and a premium trial status. A left sidebar lists various data sources and categories. The main content area features a 'Welcome Pratiksha!' message, a brief description of the service, and a 'Get started in 3 simple steps' guide. The steps are: 1. Import/Connect Data, 2. Create Reports & Dashboards, and 3. Share & Embed Reports & Dashboards. A 'Get Started' button is highlighted with a red box. To the right, there are links to watch a getting started video and learn how to create a dashboard, along with options to request a demo or view more.

Task 3: Using Zia AI to explore data and generate reports

Step 1: Go to the left corner, click **More** and select **Ask Zia** option.

The screenshot shows the Zia AI workspace interface. The top bar includes a 'Home' button, 'Workspace - 1' dropdown, and a 'Premium Trial - 9 days left' badge with an 'UPGRADE' button. The left sidebar contains icons for Explorer, Dashboards, Reports, Data, and a 'More' button (highlighted with a red box). The 'More' menu is open, showing options: Ask Zia (highlighted with a red box), Code Studio, AutoML, Data Sources, Settings, and Trash. The main area displays 'Workspace - 1' with a search bar and a 'New Folder' button. Below the search bar is a section for 'Expand / Collapse All' and a 'Tables & Reports' section. A table titled 'electronics_data...' is visible, showing columns for 'Order Date' and 'Revenue'. The table data is as follows:

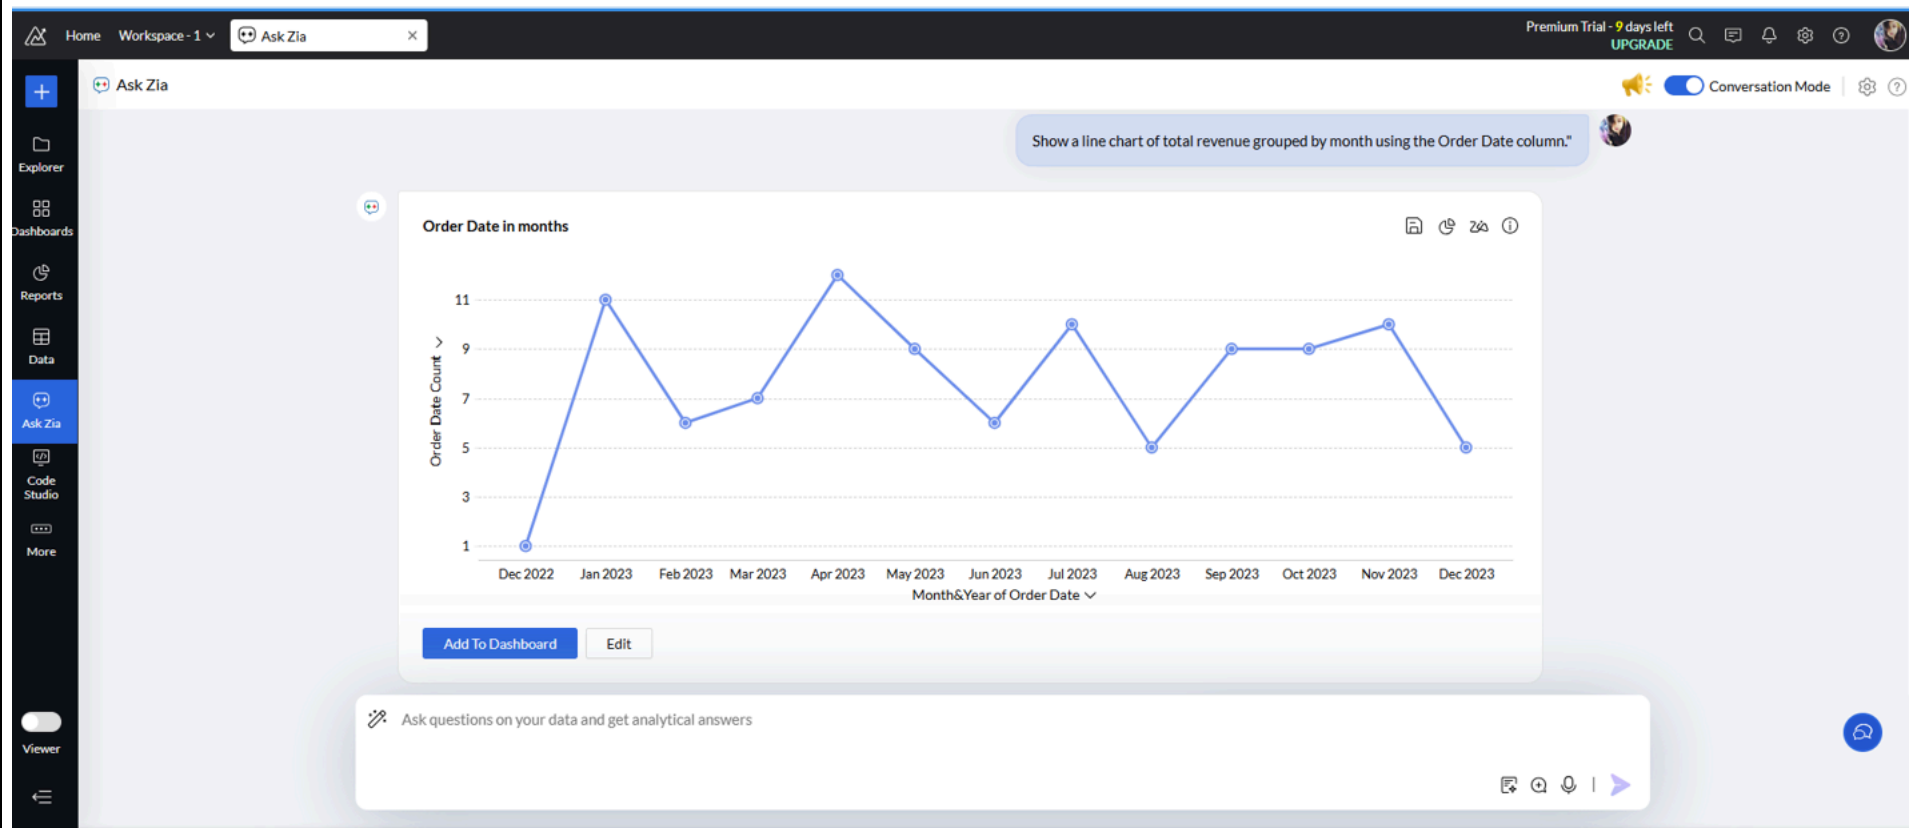

Order Date	Revenue
2023-09-01	26.52
2023-10-05	51.88
2023-06-02	27.62
2023-08-12	134.89
2023-09-27	62.81
2023-11-03	41.05
2023-10-12	60.87
2023-07-01	152.56
2023-10-27	179.41
2023-05-09	396.5
2023-12-24	39.02
2023-11-09	154.88
2023-12-10	21.01

Step 2: Enter the following prompts one by one in the Zia AI prompt bar and generate all the charts through Zia.

Prompt 1:

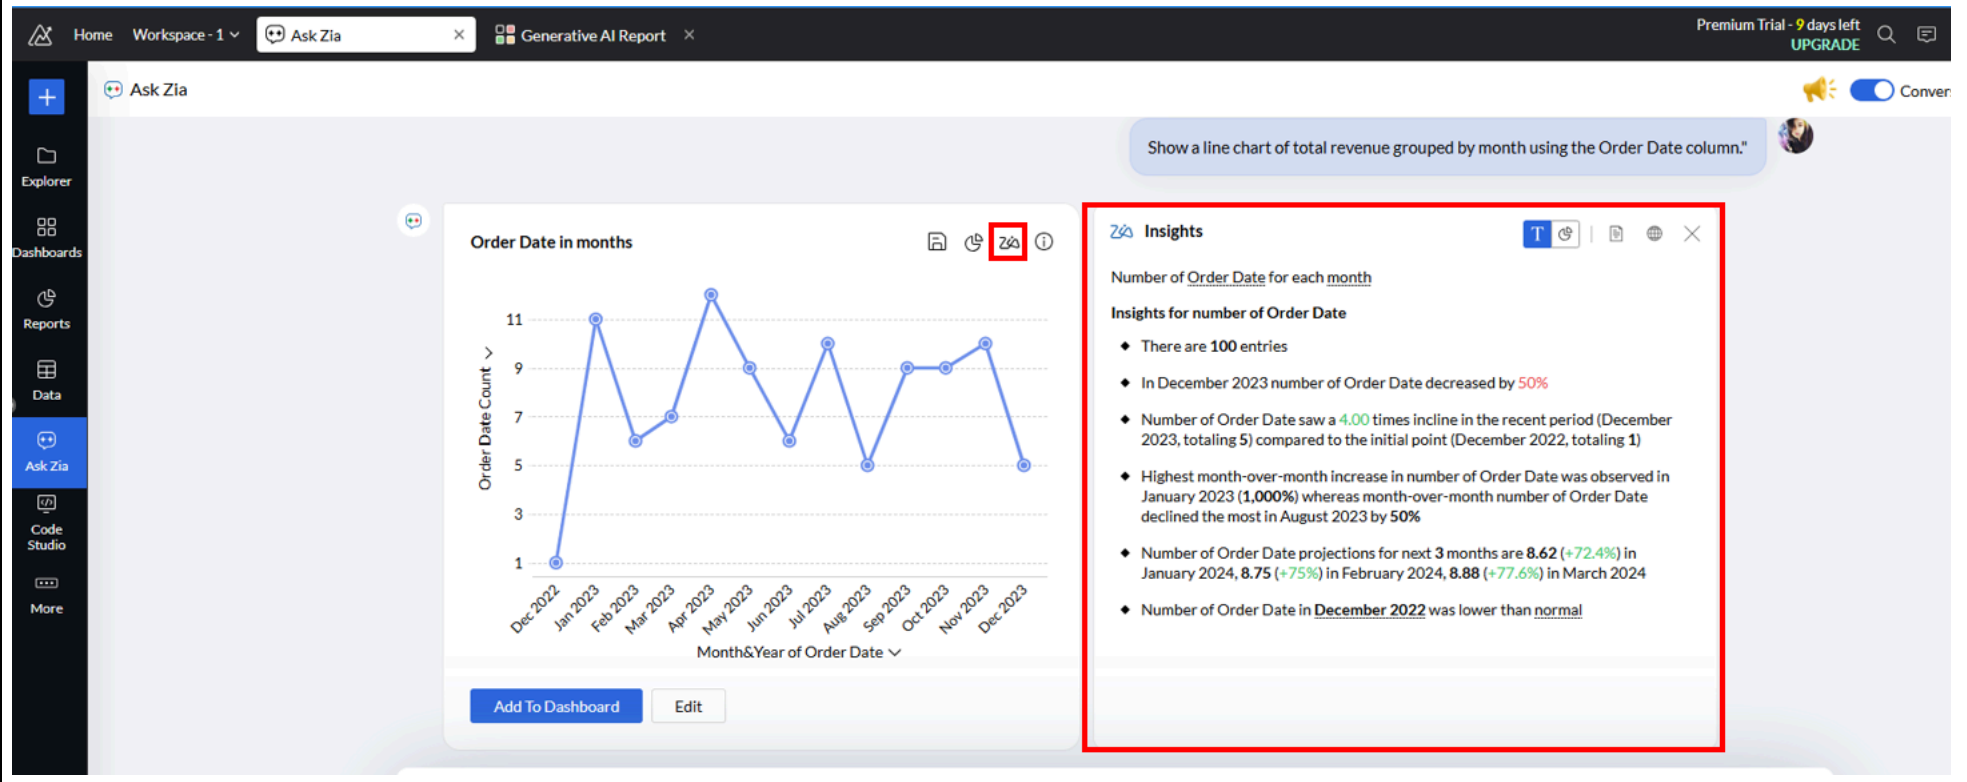

Show a line chart of total revenue grouped by month using the Order Date column.

Sample output

You can click **Zia insights** icon on the top-right corner to see the detailed insights of the generated chart as shown below.

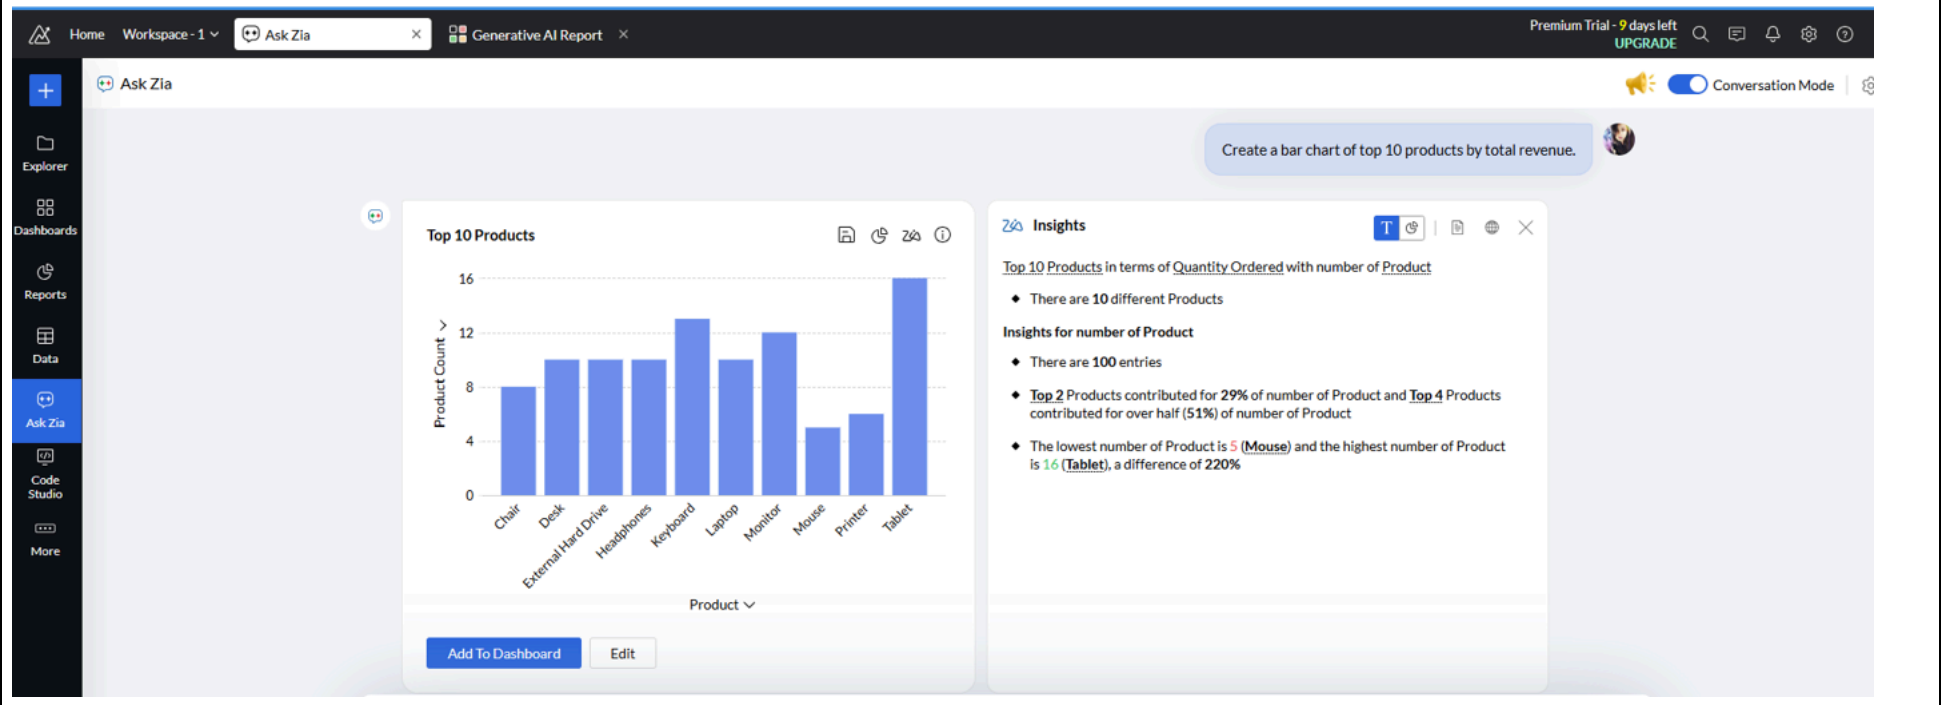

Sample output

Prompt 2:

Create a bar chart of the top 10 products by total revenue.

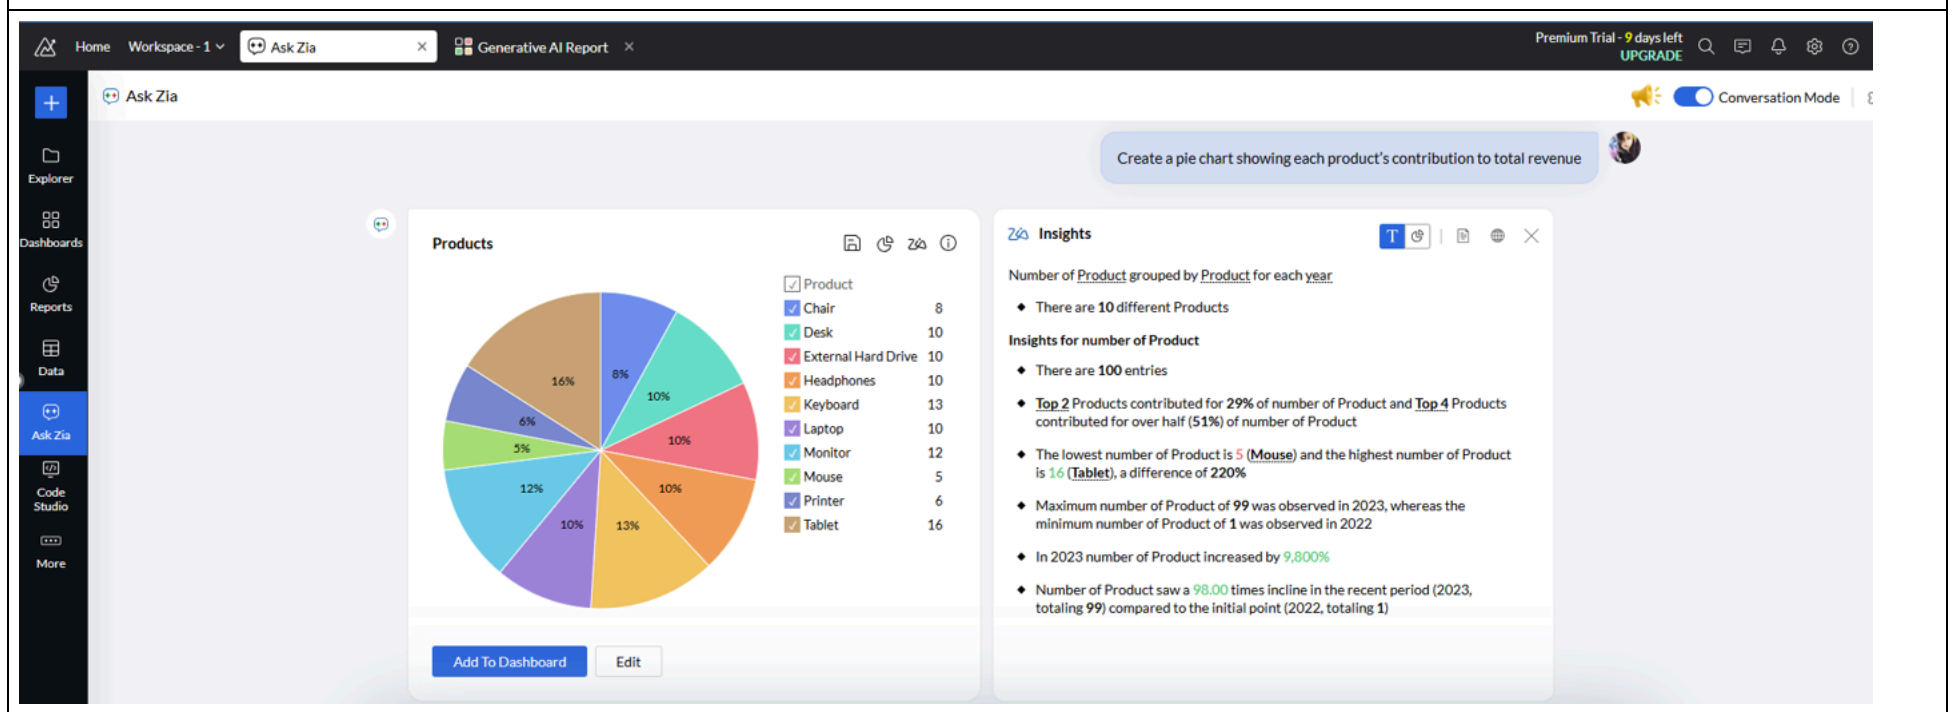

Sample output

Prompt 3:

Create a pie chart showing each product's contribution to total revenue.

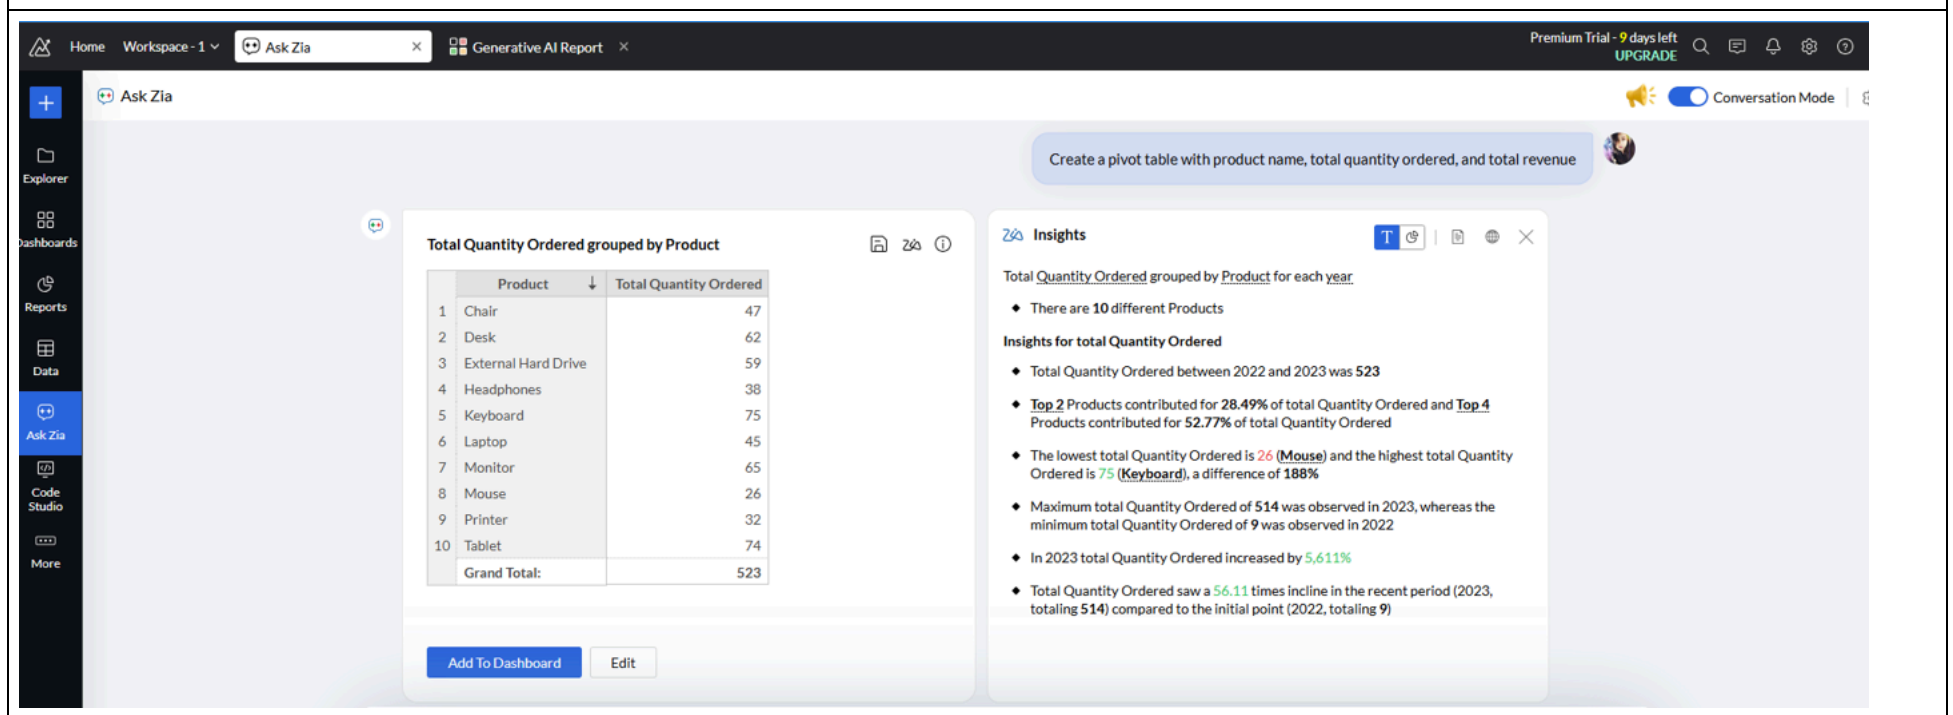

Sample output

Prompt 4:

Create a pivot table with product name, total quantity ordered, and total revenue.

Sample output

Step 3: After generating all charts go to **Dashboard** and select **Create new Dashboard**

Step 4: Drag and drop the dataset in the report section.

The screenshot shows a dashboard creation interface. On the left, a sidebar contains navigation options: Home, Workspace - 1, Ask Zia, and New Dashboard. The 'Reports' section is active, showing a 'Drag and Drop the Reports' panel. This panel has a search bar and a list of available datasets, with 'electronics_dataset' highlighted by a red rectangle. The main workspace area is titled 'Drag and drop reports here' and contains a red-bordered box with a preview of a report layout. This layout includes a table, a bar chart, a funnel chart, a grid, and a line chart. Below the preview, there are links for 'Video Demo' and 'How to create dashboard?', and a button labeled 'Copy From Existing Dashboard'. The top right corner of the interface shows a 'Premium Trial - 9 days left' notification and an 'UPGRADE' button. The bottom right corner has a blue circular button with a speech bubble icon.

Step 5: Click **Save**, enter the dashboard name, and click **Ok** to save the dashboard.

The screenshot shows a dashboard builder interface with a 'Save As' dialog box open. The dialog box has the following fields:

- Name: Generative AI Report (highlighted with a red box)
- Save in Folder: Tables & Reports
- Tag: Add a tag
- Description: (empty text area)

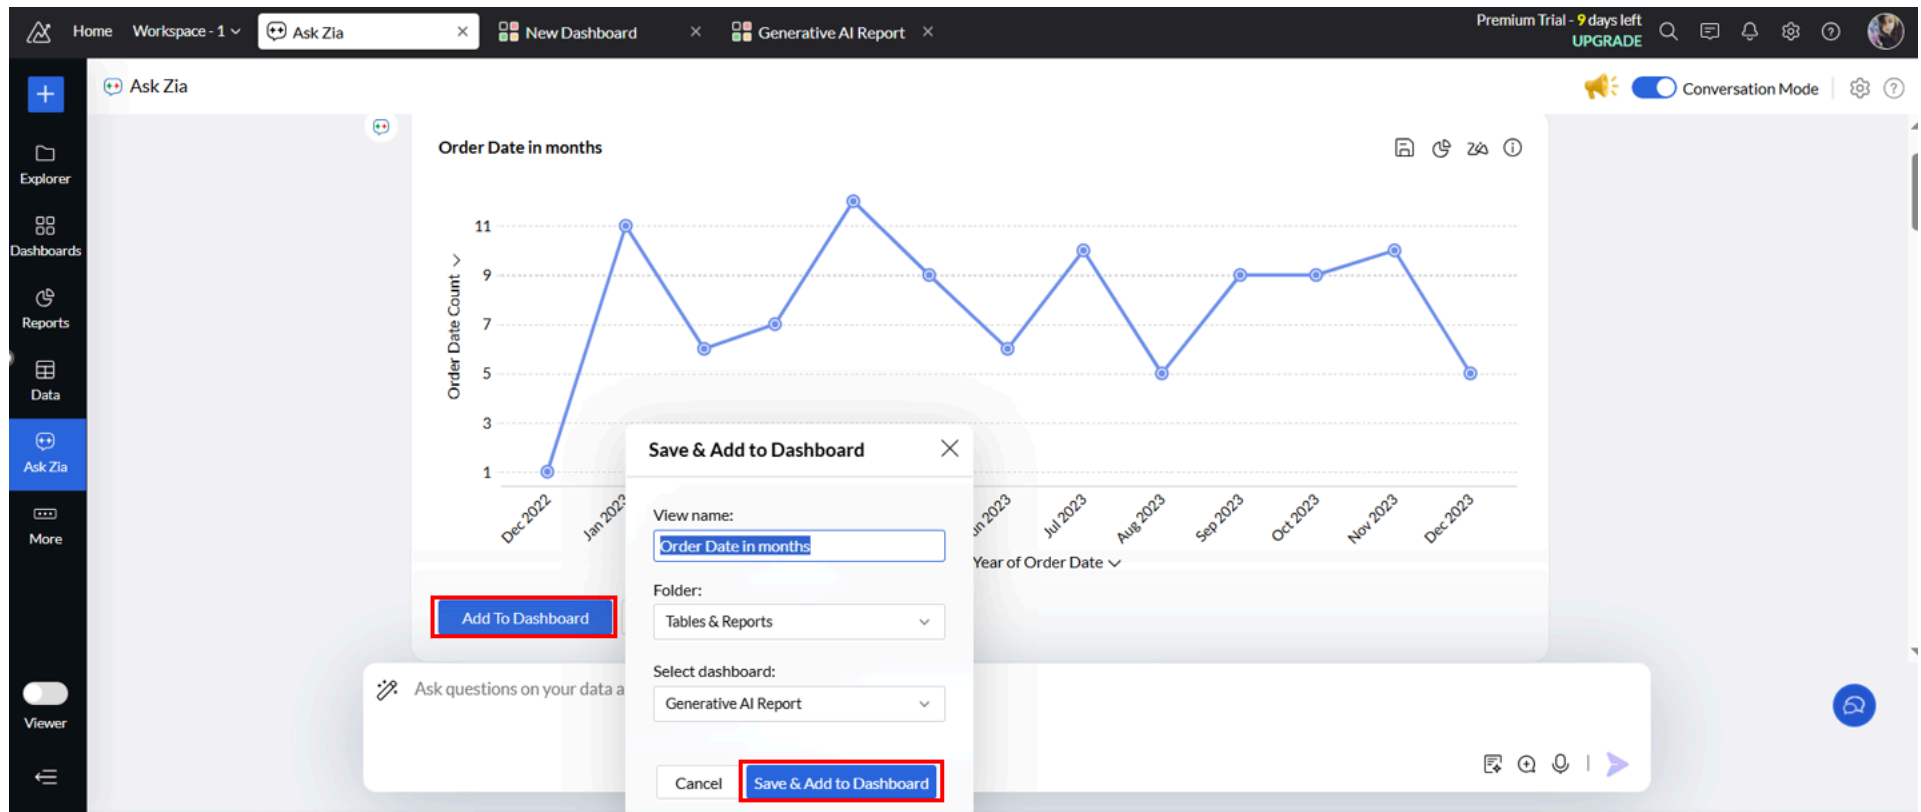

At the bottom of the dialog box, there are 'Cancel' and 'OK' buttons. The 'OK' button is highlighted with a red box.

In the background, a table titled 'electronics_dataset' is visible with the following data:

#	Order ID	Product	Quantity
1	3	Monitor	
2	7	Tablet	
3	11	Headphones	
4	15	Desk	
5	19	Monitor	
6	23	Tablet	
7	27	Headphones	

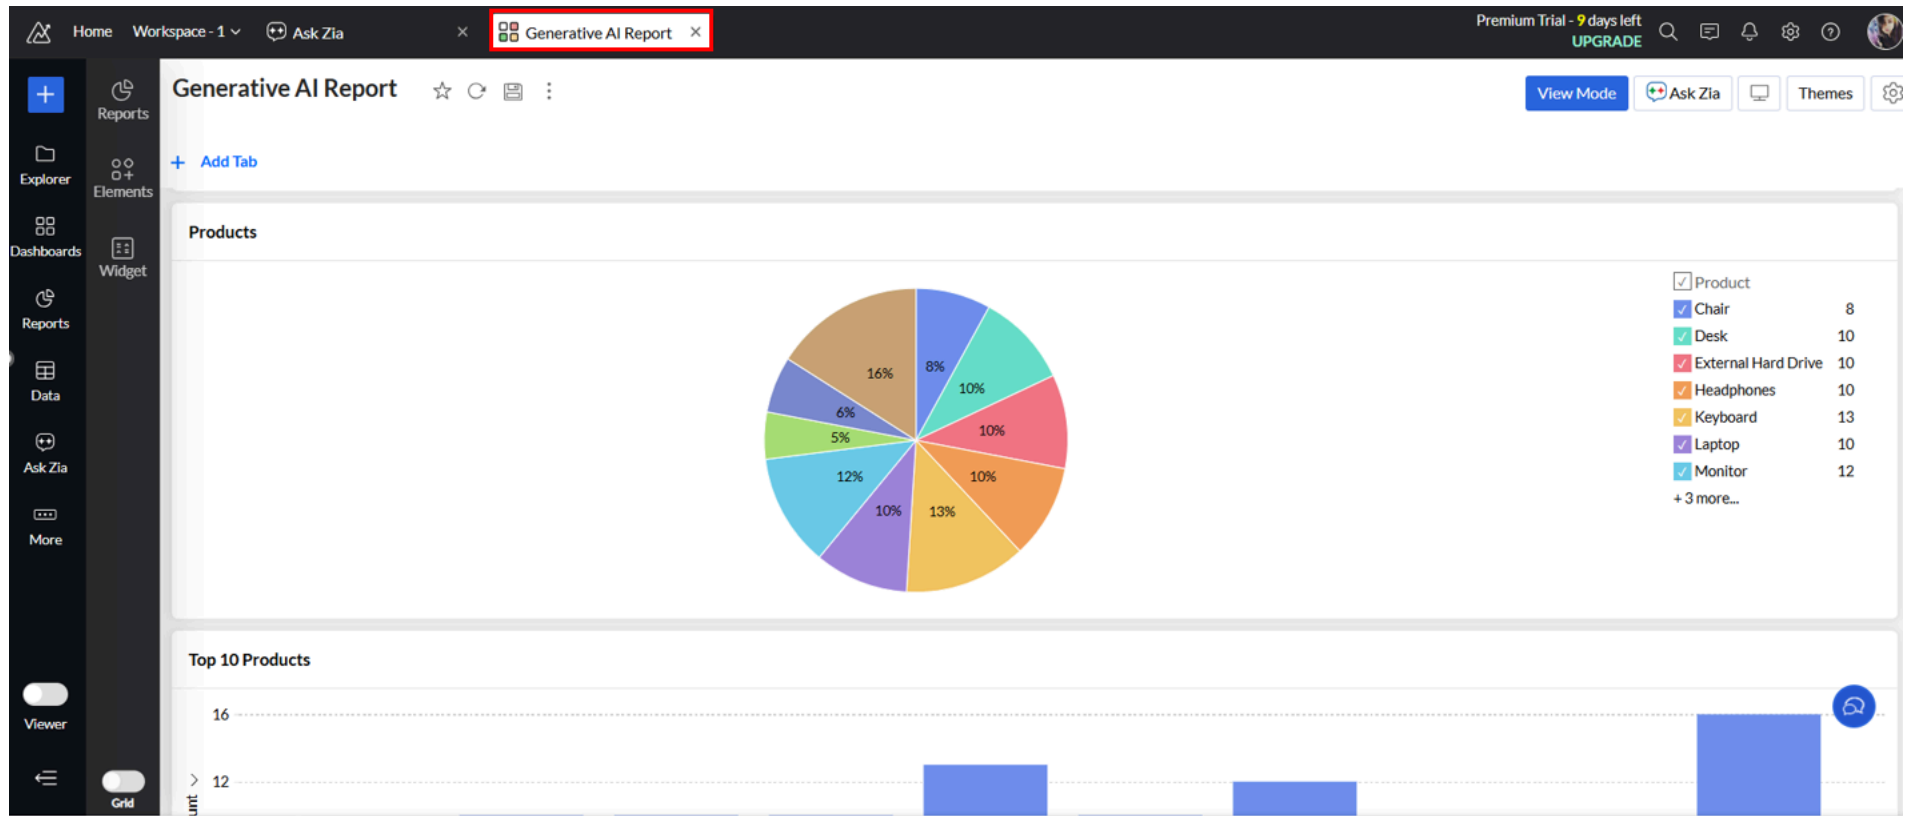

Task 4: Finalizing the charts to be used in the report

Step 1: Go back to Zia, save, and add the charts to the dashboard one by one that you created earlier.

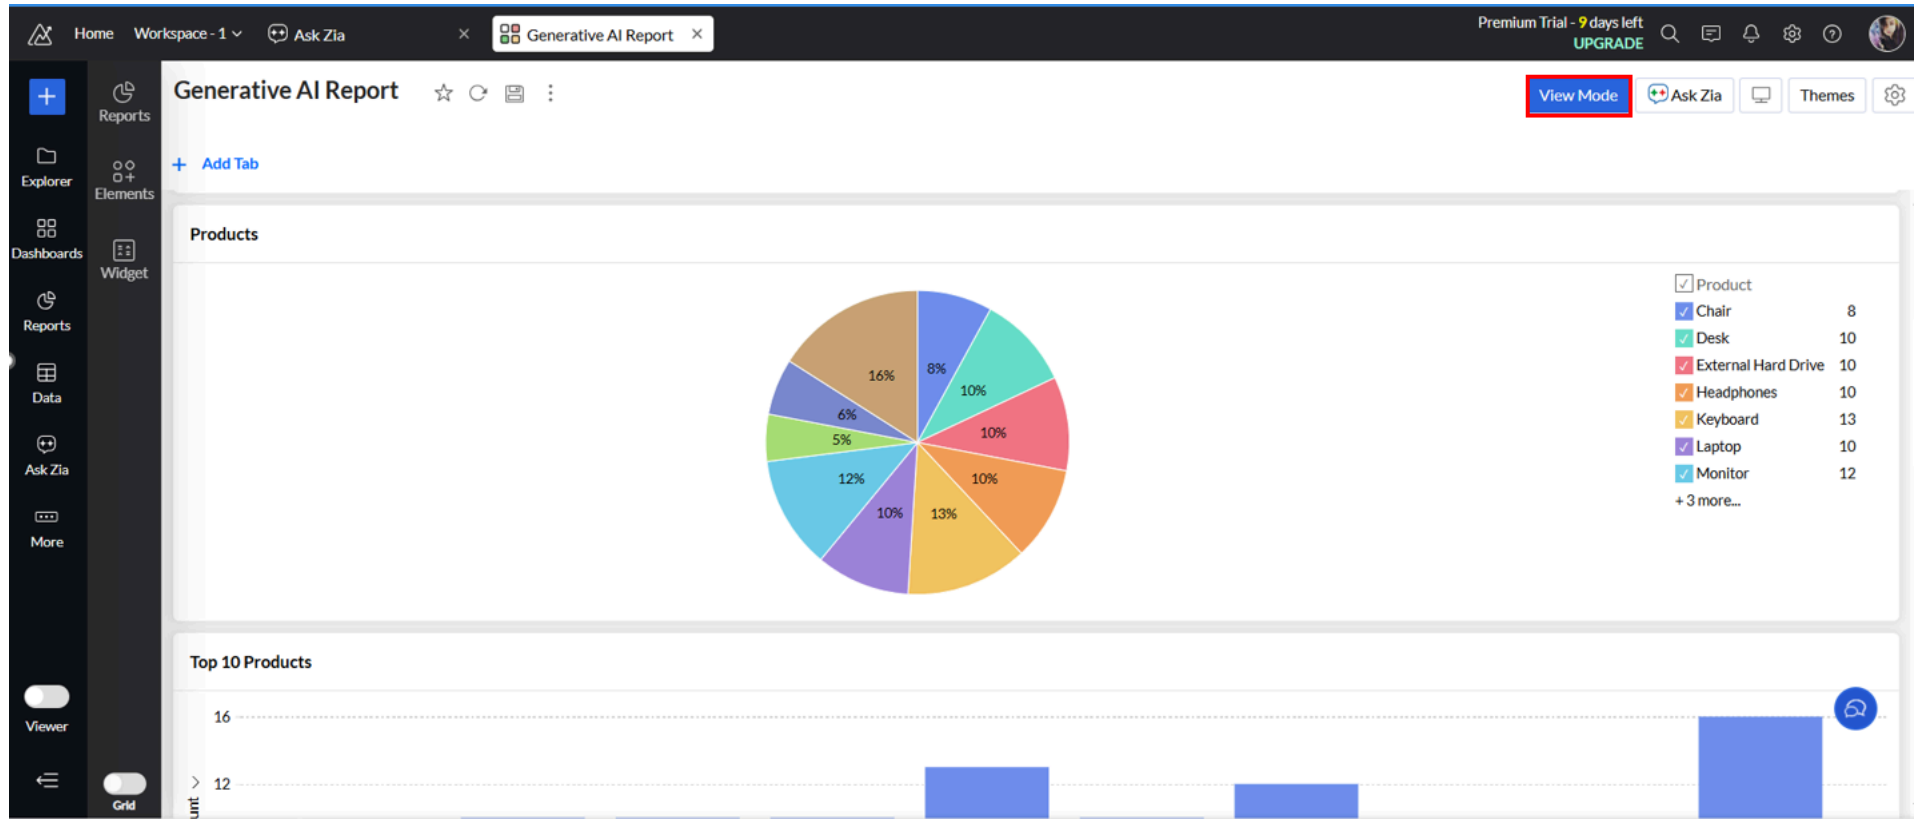

Repeat the same step to add the other charts to the dashboard.

Step 2: Once the charts are added, go to the dashboard to find the charts that you have added.

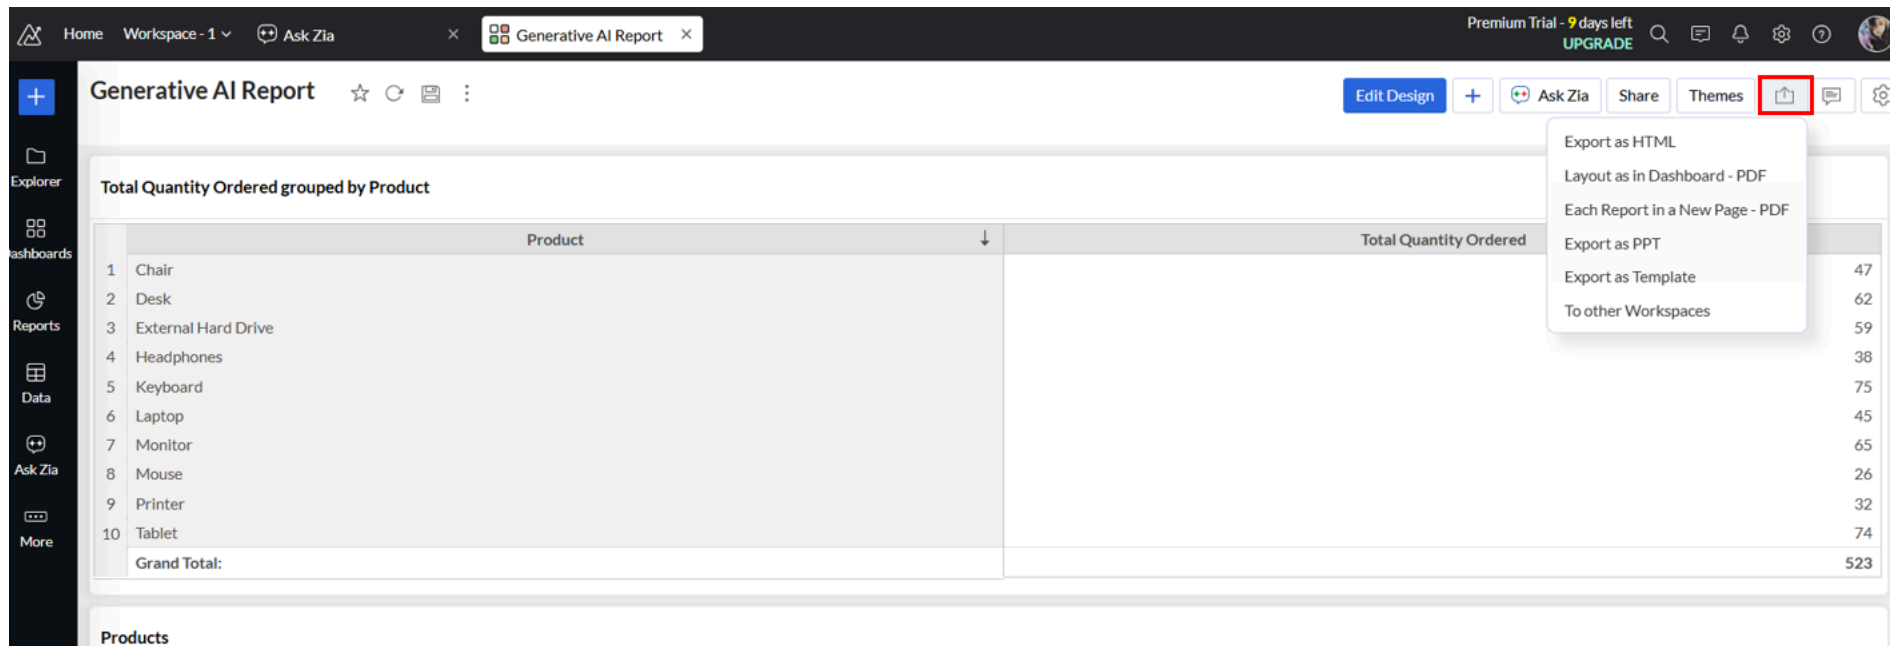

Task 5: Saving and sharing the report

Step 1: Go to the View Mode.

Step 2: To export the dashboard, click **Export** and select the appropriate option to download the dashboard.

Generative AI Report
